DETAILED ACTION

1. Claims 1 and 2 are cancelled.
2. Claims 3-4 are allowed.

Reasons for Allowance

3. This is examiner's statement of reasons for allowance.

Regarding claims 3 and 4, the prior art, either singularly or in combination, does not teach or suggest an image-reading device having a first end and a second end and comprising:

a platen glass for supporting an original document;

an end glass adjacent to the platen glass;

a sheet member that connects bottom surfaces of the platen glass and the end glass;

a feeder for feeding a document to the platen glass;

a carriage arranged for movement relative to the platen glass and the end glass from the first end of the image-reading device toward the second end of the image-reading device;

a rod lens array mounted on the carriage;

a photoelectric transfer device for reading an image of the original document formed by the rod lens array;

a controller for driving the carriage at a first speed as it travels from said first end to said second end and for driving the carriage at a second speed that is slower than said first speed during a time the carriage is traveling near said second end; and

wherein

the carriage includes a sliding member that is biased against the sheet member during a time the carriage is being driven by the controller at said second speed.

Art Unit: 2625

said second speed is less than one-half the maximum speed of the carriage.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
